

THE WHISPERING

SYNOPSIS

The world of insurance investigator Peter Ransket is turned upside down when a routine suicide follow-up begins to look more and more like murder.

Haunted by nightmares of his twin sister's own suicide, Ransket initiates a private investigation and quickly becomes obsessed with tracking down the murderer.

It's not long before he meets up with Lisa Smyths, a beautiful, wayward young waif with suicidal tendencies of her own. She helps Peter realize a need to open up and confront the tragic events of his sister's death.

Aided by pragmatic Theology Professor, Jake Meyers, this unlikely trio soon discovers the horrifying truth...

This murderess is not a living woman, but rather a cunning demonic entity – a twisted spirit which takes on the very real form of a bizarrely beautiful temptress. She can be anybody to anyone at anytime. A kind friend. A trusted confidant. Or taunting enemy, whose visceral whisper can make the vulnerable choose death over life.
